CAREER OBJECTIVE

BCA (Honours) student at Brainware University with hands-on expertise in MERN stack and full-stack web development, building real-world applications using MongoDB, Express.js, React.js, and Node.js. Completed the AWS re/Start Cloud Practitioner program with practical experience across core cloud services. Passionate about creating efficient, scalable web solutions and eager to grow in a development-focused role — with a broader aspiration toward software engineering.

TECHNICAL SKILLS

Programming	C, Python, JavaScript
Web & MERN	MongoDB, Express.js, React.js (Vite), Node.js, HTML5, CSS3, REST APIs
Cloud (AWS)	EC2, S3, VPC, IAM, Lambda, RDS, CloudWatch, CloudTrail, ELB, Route 53
Databases	MySQL, MongoDB, DBMS
DevOps & Tools	AWS CLI, Git, Linux, VS Code, Postman
Networking	TCP/IP, DNS, Subnetting, Security Groups
UI/UX	Responsive Design, Component Architecture, User Interface Design

TRAINING & CERTIFICATIONS

AWS re/Start Program — Cloud Practitioner

2026

Amazon Web Services | Remote / India

- Completed hands-on labs covering EC2, S3, VPC, IAM, Lambda, RDS, DynamoDB, and CloudFormation.
- Trained in Linux system administration, Python for DevOps, and cloud networking.
- Studied AWS Well-Architected Framework, High Availability, Auto Scaling, and Cloud Adoption Framework.
- Prepared for the AWS Certified Cloud Practitioner (CLF-C02) examination.

Data Representation & Visualization

Jul – Aug 2024

Value Added Course (30 hours) | Brainware University

- Hands-on data analysis, charting, and visualization techniques.

UI Mastery: User Interface Design & Development

28–30 Aug 2025

3-Day Workshop | Brainware University

- Practical training in modern UI design principles and frontend development.

INTERNSHIP

Full Stack Development Intern

Aug 2026 – Present

Rixi Lab Technologies | Remote / Online · Intern ID: RL26080702 · 8-Week Summer Internship

- Selected for an 8-week Full-Stack Development internship, working on real-world projects under the guidance of experienced mentors.

- Building and shipping full-stack features (Node.js, React, REST APIs) for live client/product work, following production-grade engineering practices within an agile, learning-driven team.
- Collaborating with mentors on feature delivery, code reviews, and iterative development within a startup engineering workflow.

Full Stack Web Development Intern

Oct 18 – Nov 18, 2025

Future Interns | Remote

- Learned full-stack development through a structured industry fellowship program.
- Gained hands-on experience with modern web technologies and real-world project workflows.
- Practiced professional problem-solving, teamwork, and communication in a remote setting.

ACADEMIC PROJECTS

Easy PetPuja — Online Meal Booking System

2024 | Team Project

Stack: MongoDB, Express.js, Node.js, HTML, CSS, Razorpay | Guided by Dr. Taraknath Paul

GitHub: github.com/hi-sourav-dev/project_petpuja

- Built a full-stack web app for Brainware University's canteen to streamline meal booking and payment.
- Implemented user login, meal selection, real-time claimed/unclaimed meal tracking, and admin controls.
- Integrated Razorpay payment gateway, reducing manual handling and improving service transparency.
- Duration: 30–40 days; collaborative team effort.

Micro Blog Application

2025 | Personal Project

Stack: React.js (Vite), Node.js, Express.js, MongoDB, REST API

GitHub: github.com/hi-sourav-dev/microblog_project

- Built a full-stack microblogging platform with user authentication, post creation, image uploads, and profile management.
- Implemented reusable components, structured page modules, and secure REST API-based data handling.
- Demonstrated modular development, scalability, and clean client–server separation.

ZestEats — Food Delivery Application

2026 | Personal Project

Stack: React.js (Vite), Node.js, Express.js, MongoDB, Socket.io, JWT, Razorpay

GitHub: github.com/hi-sourav-dev/zesteats_project

- Built a full-stack MERN food delivery platform with restaurant listings, menu browsing, cart management, and JWT-based user authentication.
- Implemented real-time order status tracking (Placed to Delivered) with Socket.io and integrated Razorpay payments with server-side signature verification.
- Designed RESTful APIs for restaurant, menu, and order management, including dedicated endpoints for restaurant-owner order handling.

EDUCATION

Bachelor of Computer Applications — BCA (Honours)

2023 – 2027 (Ongoing)

Brainware University, Kolkata, West Bengal | CGPA: 9.20 / 10.00

- Relevant coursework: Data Structures, DBMS, Computer Networks, OOP, Web Technologies, Cloud Computing.

Higher Secondary Examination — WBCHSE

2023

West Bengal Council of Higher Secondary Education | Aggregate: 88%

Secondary Examination — WBBSE

2021

West Bengal Board of Secondary Education | Aggregate: 88%

ADDITIONAL INFORMATION

Languages	English, Bengali, Hindi
Location	Narajole, Daspur, West Medinipur – 721211
Date of Birth	24th December 2004
Nationality	Indian
